HOME LEARNING

**Topic Title: All About Me!**

For your home learning you can choose from the following tasks. **You must do the task in the centre first.** You can do the other tasks in any order. Please upload anything you discover to Tapestry.

### Physical Development

#### Fine Motor Skills

Write your name in bubble writing. Fill it with lots of collage or colours. Cut up your own bits of paper and add, or fill with drawings of your favourite things. Cut out your name letter by letter and make a sign. Hang it anywhere you want

#### Gross Motor Skills

Make an obstacle course either inside your house or outside in the garden. What can you travel under, over and through? Time yourself to complete the challenge with a grown up. Can you make your time faster? What's your best time? Can you make your obstacle course longer with more challenges?

### Communication and Language

Make a feely bag full of different things. Sit in a circle with your family. Take turns to describe what the items are without saying the name. Try your best to use lots of different describing words.

### Home Reading

Visit <https://www.oxfordowl.co.uk/> and create a free parent account. This will allow you to access Oxford Reading Tree reading books and activities for your child. Try to read every day.

### Mathematics

Choose a favourite meal and ask a grown up to help you make it. Can you be in charge of measuring? Can you make sure you have the correct amount of everything? Record amounts of what you use.

### Literacy

Write or draw a recount of what you have been doing with your time off school. We would love to see some labels if you draw it!

### All About Me.

Draw a picture of yourself. Make it as detailed as possible. Try to label the different body parts. What colour hair and eyes do you have? You could even write a few sentences about your favourite things, like colours, foods or toys.

### Espresso Log In

[www.discoveryeducation.co.uk](http://www.discoveryeducation.co.uk)

Log on to Espresso using your user name and password that your child received from school. Use the foundation section and try some of the activities.

### Knowledge and Understanding

Go on a technology hunt in your house. Can you find all the things that need to be plugged in or turned on to work? Can you write or draw the things you can find? Is there any in your garden or shed?

### Phonics

Download the free app 'teachmonster'. This has lots of fun phonics games for your child to play. Try to play a game every day.

### Expressive Arts and Design

Make a display of your family and loved ones. Label everyone who is there, think of people in your house and others too, including pets! Tell us all about them, put in lots of detail. You can colour, paint, draw, use playdough or junk. You could even dress up and video yourself acting or singing!

### Listening and Attention

Hunt out some old pictures of you and your family. Ask your grownups to tell you about them. What has changed? What is different between now and then?
